DETAILED ACTION

1. Claims 1 to 52 are presented for examination.

Response to Amendment

2. Claims 51 to 52 were inadvertently omitted from the objected claims in the last office action.

Allowable Subject Matter

3. Claims 1 to 36 and 38 to 52 are allowed.
4. The following is an examiner's statement of reasons for allowance: the instant invention is directed to an adaptive forward error correction method and system for adjusting in response to the comparing step a size of blank data fields of the code-words comprised of data packets. The prior art made of record teaches adaptive forward error correction for communication systems wherein the bit error rates are compared and adjusted; however, the prior art made of record is different from the instant invention in that the prior art made of record, taken alone or in combination, fails to teach or fairly suggest or render obvious the novel element of the instant invention.

Specifically, the prior art made of record fails to teach in combination with the other claimed steps a step of adjusting, in response to said comparing step, a size of blank data fields of said code-words comprised of data packets and maintaining a sum of said sizes before and after said adjusting steps. Therefore, claims 1 and 38 recites

the novel element of the instant invention and are allowed over the prior art made of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
